HB International offers a wide range of tools so RC enthusiasts will not have to look for too long to find what they need.

Our range includes a wide assortment of ever improving tools from Team Magic which are unbeatable in quality and price.

H.A.R.D. Racing offers high end tools with carbon handles, so if you are after the best you can't go wrong with this brand.

Most of the tools can be purchased in a set or individually in case you just need one or two wrenches to complete your tool box.

For more information on the listed tools please visit manufactures websites:

www.teammagic.com.tw www.hard-racing.com www.eaglemodel.com

TEAM MAGIC

Team Magic 1:8 scale bag is probably the most popular bag we stock.

**BEST
SELLER**

Its popularity could be assigned to its great design, quality and functionality.

Team Magic did really well as it always does. This bag with steel frame could be easily used on the plane without you having to worry about your precious cars and tools getting damaged.

Time to get organised!

As you can see there are many products available to make your life easier and put all of your stuff in order. HEI International offers everything from tool bags, transmitter bags and can bags to battery and motor boxes and cases, pinion and glow plugs stockers and small parts cases.

So go and see your local store and ask them to get you all you need. No more lost tools and all those essential small parts that always get lost.

RC TECH PAINT FROM GHIAINT

RC CAR COLOUR

RC Car Colours have been specially developed for the painting of Polycarbonate body shells.

The special solvent used etches the surface, allowing the paint to bond permanently with the plastic.

RC STYRO COLOUR

Styro Colours have been specially developed for painting onto Polystyrene - Styrofoam and many other plastic surfaces.

RC COLOUR

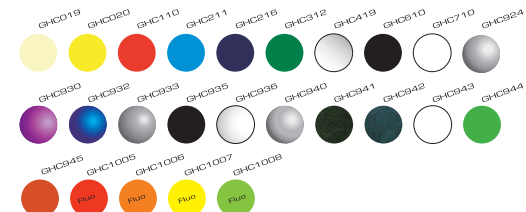

RC Colours have been specially developed for painting onto all kind of surfaces.

RC Colours are Oracover - Solarfilm matched and can also be used onto other films.

XR022 ICE

XR023 CARBON FIRE

With xxxmain products painting bodies becomes so easy that anyone can have cars with beautiful designs.

You can either use simple external stickers or pick one of the pre-cut paint masks and paint a great body using your favorite colours.

If you are not a skilled body painter we have something for you - an instruction DVD on how to use xxxmain products to come up with a masterpiece.

The new X-WRAPZ are not just great fresh designs they are also universal so you don't need a specific kit for each chassis or body design and they are die cut making them fast and easy to apply.

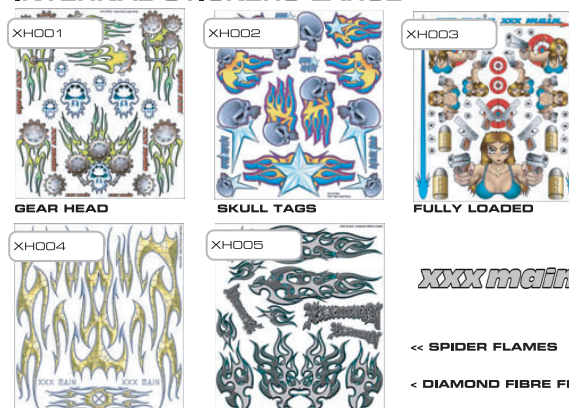

If you need a little bit of inspiration in what to do with your car you should definitely get one of the crazy DVD's that xxxmain offers. These guys are not afraid to destroy their cars to have fun (just a reminder - if you break your car doing what they do, you have to take the responsibility for it and buy the spare parts to fix the car).

For the racers we have the set up guide which will take you through the steps to make you car balanced and handling the way you want.

For news and info about these new products please visit either our website - www.hobbyexpress.com.au or xxxmain website - www.xxxmain.com
